Profile

Working as an Application Developer at IBM with more than 2 years of experience in enterprise integration. Experienced in SAP PI/PO and currently working on SAP CPI to develop end-to-end cloud-based integrations.

Involved in interface development, enhancements, and ensuring smooth data exchange across systems, along with exposure to PI/PO to CPI transition initiatives. Currently focused on strengthening skills in SAP Integration Suite and modern integration technologies.

Key skills

- SAP Integration Technologies: SAP PI/PO, SAP CPI (Cloud Platform Integration), SAP Integration Suite
- Integration Development: End-to-End Interface Design & Development
- APIs & Connectivity: REST, SOAP, OData, JDBC, IDoc, SFTP, FTP
- Data Transformation & Scripting: XML, XSLT, JSON, Groovy (Basics)
- Tools & Monitoring: Postman, SOAP UI, Interface Monitoring, Error Handling, Root Cause Analysis
- Problem Solving & Analytical Thinking
- Adaptability & Quick Learning
- Team Collaboration
- Client & Stakeholder Communication

Work experience

Application Developer

IBM Private Ltd, India | Aug 2023 - Present

As an SAP PI/PO Consultant at IBM, I have designed, developed, and supported end-to-end integration solutions across SAP and non-SAP systems. My role involves technical analysis, interface configuration, message mapping, adapter setup, and ongoing support to ensure seamless system communication.

• Responsibilities:

- Developed and configured integration scenarios using SAP PI/PO for critical business processes.
- Designed message mappings (Graphical, XSLT, Java) and configured adapters (File, SFTP, REST, SOAP, JDBC, IDoc).
- Performed root cause analysis and resolved technical issues efficiently.
- Handled system monitoring, performance tuning, and error management for interface stability.
- Provided L2/L3 support and collaborated with functional teams for resolution.
- Created documentation for technical designs, test cases, and support activities.

- Contributed to process improvements and followed best integration practices.
